Available March 1

ONION PLANTS:

CRYSTAL WHITE WAX— Extra mild and sweet. Onions are medium large, flat, and pure white. The earliest of the Bermuda type.

YELLOW SWEET SPANISH— This globe shaped onion is the largest and sweetest variety grown. Flesh is pure white, crisp, juicy, and so mild and sweet that it is unsurpassed for eating raw.

YELLOW BERMUDA— Bulbs rather small, mild, and flat. The flesh is white.

WHITE SWEET SPANISH— Very large bulbs, solid, crisp, juicy, and mild.

EARLY RED SALAD ONION— Bulbs deep flat shape. Flesh is white tinged with pink. Makes very colorful salad or slaw.

COLLARD PLANTS:

VATES— Ideal boiling greens. Plants grow until heavy freeze.

PEPPER PLANTS

AVAILABLE MAY 1

SWEET PEPPER:

YOLO WONDER— 72 Days. Mosaic Resistant, Dark Green, thick walled fruit. Ideal for shipping and market garden.

CALIFORNIA WONDER— 75 Days. Similar to Yolo Wonder.

HOT PEPPER:

HUNGARIAN WAX— 65 Days. Fruit 1½ inches across at shoulder and tapers to 6 inches in length. Hot and bright waxy yellow color. Excellent for pickling and canning.

LONG RED CAYENNE— 70 Days. Five inches long and about 1/2 inch thick. Very strong and hot. Deep green when young and bright red when ripe.

SENSATIONAL—

CLIMBING TOMATO PLANTS

This is a tomato with many Superior Qualities. Vines grow rapidly to 10 to 18 feet when grown on a trellis. A trellis is not necessary, however, as it will outyield other varieties when grown in bush form. The large crimson fruit averages 5 inches across and up to 3 inches deep. The fruit is solid and unexcelled for slicing and canning.

FIELD GROWN

TOMATO PLANTS

Ready for Shipment April 15 to June 10

All of our plants are field grown. They are not Frost Proof but are hardier and stronger than plants grown in the greenhouse or under cover. Growing the plants in the open field assures you of a healthy, strong, vigorous plant with a well developed root system. All of our tomato plants are grown from Certified seed, inspected by the State Department of Entomology. The plants are sprayed with insecticides and fungicides to meet the requirements of the Department of Entomology. Plants are usually 6 to 9 inches in height with a good stem.

VARIETIES

RUTGERS— 80 Days. A main crop tomato widely grown for green-wrap, canning, catsup and juice. Fruit averages 6½ ounces and are smooth, deep globe shaped, mild and bright red.

MARGLOBE— 78 Days. A main crop variety for home and market gardeners. Fruit is globe shaped, smooth, solid and averages 6½ ounces.

CAMPBELL'S NO. 146— 85 Days. Both crack and wilt resistant. Big, firm, slightly flattened fruit has fine type and quality. A very good all-purpose tomato.

ROMA— 75 Days. An excellent paste tomato. Fruit is plum or pear shaped with fleshy, thick walls, high solid content and few seeds. Color is excellent both inside and out.

GLAMOR— 77 Days. A heavy yielding, flattened, globe shaped variety. Crack resistant with a high percentage of No. 1 fruit. Fruit averages 7 ounces.

FIREBALL— 68 Days. Extra early, vines small and open and can be set 1½ to 2 feet apart. Fruit is good size, smooth, globe shaped and unusually firm.

BEET PLANTS

(FROST PROOF)

DETROIT DARK RED— Very popular for home and garden. Extra deep dark red throughout.

CAULIFLOWER PLANTS

(FROST PROOF)

EARLY SNOWBALL X— 65 Days from plant setting. Very reliable heading variety with snow white, compact heads that grow up to 7 inches across.

LETTUCE PLANTS

GREAT LAKES— This head lettuce has the ability to head under the most adverse conditions. It is tipburn resistant with large well-folded protecting leaves. Produces large solid heads which are crisp and tender.

BROCCOLI PLANTS

DeCICCO— An extremely early strain producing large heads. Plants medium tall, light green in color and very productive. The best early strain of Broccoli available.

BRUSSELS SPROUTS

BRUSSELS SPROUTS are miniature mild flavored Cabbages about 1½ to 2 inches across. They grow along the stalk and should be harvested from the bottom up so they will continue to bear. They are very hardy and not harmed by frost.

AVAILABLE MARCH 1

Salad or Miniature Cocktail Tomatoes

Available April 15

A novel miniature tomato growing to a height of 6 to 8 inches and only about 14 inches across. It is the earliest of all tomatoes and is loaded with clusters of bright red fruit that are nearly round and are 3/4 to 1 inch across. Even though the fruit is small, they have an excellent flavor and will give you ripe tomatoes before other home-grown varieties are available. They are also very colorful when potted or planted in the flower garden.

OUR GUARANTEE

We guarantee our plants to be first class in every particular when they leave here and will refill the order free of charge or refund purchase prices on any plants not entirely satisfactory, provided plants have not been delayed or damaged by transportation company and we are notified promptly. Evans Plant Company gives no warranty, express or implied as to description, quality, productiveness, of any plants they send out and will not in any way be responsible for more than the purchase price.

BURPEE'S BIG BOY

GIANT HYBRID TOMATO

Available After April 15

This is an unusually large true first generation (F1) Hybrid. It reaches its peak of production in midseason when many standard varieties decline in size and yield. **BIG BOY** tomatoes are perfectly smooth, deep globe to deep oblate in shape, very firm, extra large, many weigh 1 pound and more; some 2 pounds and over. Scarlet red skin, thick walls, bright red, meaty flesh of fine flavor and excellent quality. Plants are extremely vigorous and heavy producers.

Readily saleable at market and roadside stands. This is an ideal tomato for the particular trade. It can be staked and pruned to one or two vines or for the regular market it can be grown unstaked and without pruning. The heavy foliage provides good protection from sun scalding and the fruits are quite free from cracks.
